Vice President

#### Education

Bachelor of Arts in Architecture  
Iowa State University 1987

#### Professional Registrations

State of Wisconsin

#### Affiliations

American Institute of Architects  
The National Associates of College & University Food Services

#### Credentials

Mr. Stirm joined Rohrbach Associates PC in 1997, after working several years as a design consultant to the firm, and became a partner in 2007. He runs and directs the efforts of our Madison, Wisconsin office.

Ken has 20 years experience in the field of Architecture with primary emphasis on design and contract documents. He has substantial experience in the development of High Tech, University and Health Care projects. While at Rohrbach Associates PC, Ken has been responsible for numerous Financial, Religious, University based Food Service and Residence Services projects, Commercial and Industrial projects.

His expertise is in the detailed design portions of High Tech projects. He has knowledge of equipment and building systems that allows for the careful planning and detailing of the interior and exterior of facilities. He has vast experience in heavy interior high-tech renovation projects which has allowed him to understand how construction and building systems have to be designed to maintain client building operations while extensively renovating their facilities

Ken previously worked for Hansen Lind Meyer Inc. in their Iowa City office and for the Hezner Corporation in Chicago. During that time he executed multi-million dollar projects throughout the country.
